

# Clinical Use

## Refractometer

**RHC-200**  
**RHC-200ATC**

### Durable

- All-metal body
- Drop-tested daylight plate with metal hinge
- 1-year warranty from Westover Scientific, Inc.

### Easy to Read

- Focusing eyepiece
- Translucent blue background
- Three scale: Urine specific gravity, serum protein (g/dl), refractive index

### Best Value

- High quality at a low price
- 30-day guarantee
- Backed by Westover Scientific, a leading refractometer manufacturer in North America

**Ordering information:** *For field use, we recommend the RHC-200ATC. Models with the ATC suffix are equipped with Automatic Temperature Compensation, which allows for shift in the ambient working temperature without recalibrations [Operating range: 50° - 86°F (10° - 30°C)]*

#### Available Models

Catalog Number	Scale Description	Range	Minimum Division	Accuracy
RHC-200	Urine Specific Gravity	1.000-1.050	.002	.002
	Serum Protein	1-12g/dl	0.2 g/dl	.2g/dl
	Refractive Index	1.334-1.360	.0005	.0005
RHC-200ATC	Urine Specific Gravity	1.000-1.050	.002	.002
	Serum Protein	1-12g/dl	0.2 g/dl	.2g/dl
	Refractive Index	1.334-1.360	.0005	.0005

#### Technical Specifications

Weight	176 grams
Dimensions	27 x 40 x 160mm
Body material	All metal
Grip	Polypropylene
Daylight plate	Ruggidized plastic
Plate hinge	yes, metal
Carrying case	yes, nylon padded zipper pouch
Pipette & Screwdriver	1 of each included
